Education

- PhD - Earth and Planetary Sciences** August 2018 – present
University of California, Davis · Advisor: Dr. Michael Oskin
Thesis: Off-Fault Deformation Over the Earthquake Cycle
- BA in Human Ecology** September 2014 – June 2018
College of the Atlantic, Bar Harbor, ME · Advisor: Dr. Sarah Hall
Thesis: Tectonoclimatic evolution of the forearc of southern Peru.
- Year abroad - Earth and Planetary Sciences** September 2016 – June 2017
McGill University, Montreal, QC, Canada.
- International Baccalaureate** August 2011 – May 2013
Pearson College UWC of the Pacific, Victoria, BC, Canada.

Research Experience

- Evolution of Off-fault Plasticity over the Earthquake Cycle** 2021-2023
University of California, Davis · Advisor: Dr. Michael E. Oskin
Refining the constitutive law and mechanistic understanding of stress dissipation by off-fault deformation over time combining field and remote sensing observations.
- Revisiting the role of geometrical complexity in rupture propagation in strike-slip earthquakes** 2022-2023
University of California, Davis · Advisor: Dr. Michael E. Oskin
Mapping, characterizing, and analyzing the length and angle of bends, splays, gaps, step-overs, and secondary strands to constrain their role in rupture propagation.
- A framework for incorporating widespread coseismic fracturing into PFDHA** 2022-2023
University of California, Davis · Advisor: Dr. Michael E. Oskin
Incorporating the displacements produced by secondary faulting and fracturing into a probabilistic displacement hazard analysis framework for immature strike-slip faults.
- Widespread inelasticity from fracture, aftershock, and strain maps** 2020-2021
University of California, Davis · Advisor: Dr. Michael E. Oskin. Collaborator: Dr. Christopher Milliner
Analyzing the density decay of damage from high-resolution fracture, aftershock, and geodetic maps of the Ridgecrest 2019 earthquake sequence to determine the distribution of coseismic inelastic failure.
- Rupture Timing and Behavior Through Cajon Pass** 2018 – 2020
University of California, Davis · Advisors: Dr. Michael E. Oskin and Dr. Thomas K. Rockwell
Constraining the timing and characteristics of linked San Andreas-San Jacinto ruptures through Cajon Pass using paleoseismology and quasistatic finite element modeling.
- Undergraduate Thesis** 2017 – 2018
College of the Atlantic · Advisor: Dr. Sarah Hall
Geomorphic, structural, and hydrological analysis of the southern Peruvian forearc to determine the timing of tectonoclimatic feedbacks and their implication for the mechanisms controlling the long-term evolution of the Andes.
- Seismology Internship** Summer 2017
McGill University · Advisor: Dr. Yajing Liu
Integrating numerical techniques in Geomorphology and Seismology to determine the structural controls of seismicity in the Western Quebec Seismic Zone. Includes source parameter estimates, computation of focal mechanism solutions, analysis of the spatial distribution of b-value, drainage geometry analysis, and characterization of topographic anisotropy.
- Volcanology Research** Spring 2017
McGill University · Advisors: Dr. John Stix and Dr. Kimberly Berlo
Characterization of entrapment pressure and depth conditions of the Jörundur rhyolitic tuya (Iceland) from FTIR-analysis of volatile contents of plagioclase-hosted melt inclusions.
- Structure and Glacial Geomorphology Research** 2015 – 2016
College of the Atlantic · Advisor: Dr. Sarah Hall
Investigation of the relationship between glacial and structural processes in shaping the landscape of Mount Desert Island, ME from field and remote landscape analysis.

Professional Experience and Workshops

Graduate Research Assistant <i>University of California, Davis</i>	2018-present
Structure and Deformation at Plate Boundaries, GeoPRISMS Synthesis Workshop <i>University of Hawaii at Manoa, March 17-18, 2022.</i>	2022
SCEC Workshop: Coordinating Post-Earthquake Field Data Collection <i>Online, January 12-14, 2022.</i>	2022
SCEC Workshop: Community Geodetic Model <i>Online, November 9-11, 2021.</i>	2021
SCEC Workshop: Research Mentee Training - Harnessing Mentoring Relationships <i>Online, September 9-11, 2021.</i>	2021
Graduate Teaching Assistant <i>University of California, Davis</i> Neotectonics Field and Data Analysis Module (Summer 2019, 2021) · Structure (Winter 2021) · Physical Geology (Spring 2019, Fall 2019) · The Earth (Winter 2019) · Field Methods (Spring 2020)	2019-2021
SCEC Cajon Pass Earthquake Gate Area: Progress and Future Plans <i>Online, September 4, 2020.</i>	2020
InSAR Processing and Time-Series Analysis for Geophysical Applications short course <i>Online via WebEx Training, August 10-14, 2020.</i>	2020
GMTSAR Short Course <i>Scripps Institution of Oceanography in La Jolla, CA, July 22-24, 2019.</i>	2019
CIG Crustal Deformation Modeling Workshop <i>Colorado School of Mines, Golden, CO, June 10-14, 2019.</i>	2019
SCEC Cajon Pass Earthquake Gate Area Initiative: Integrated Science Workshop and Field Trip <i>Hilton Palm Springs Resort, Palm Springs, CA, September 8-9, 2018.</i>	2018
Undergraduate Teaching Assistant <i>College of the Atlantic</i> Climate and Weather (Spring 2018) · Calculus III (Fall 2017) · Geology and Humanity (Spring 2016) · Geology of Mount Desert Island (2015)	2015 – 2018
Undergraduate Research Assistant <i>College of the Atlantic</i> Assisted with field work and data analysis in various geomorphology projects in the Earth System Program.	2014 – 2018

Research funding

NEHRP proposal award <i>USGS Earthquake Hazards Program Grant, Southern California</i> Quantifying the erasure of earthquakes from the landscape of Southern California: implications for hazard assessment and paleoseismology. Coauthored with Dr. J Ramon Arrowsmith. \$70,000	2023
OK Earl postdoctoral fellowship <i>California Institute of Technology</i> \$169,500	2023-2025
NASA FINESST fellowship <i>National Aeronautics and Space Administration</i> Testing constitutive laws for the evolution of off-fault deformation over the earthquake cycle. \$90,000	2021-2023
Durrell Graduate Field Award <i>University of California, Davis</i> Support for field campaign and instrumentation awarded by the UC Davis Earth and Planetary Sciences department. Awarded yearly. \$3,100	2019-2022
SCEC Proposal Award <i>Southern California Earthquake Center</i> Beyond the damage zone: Characterizing widespread inelastic deformation from surficial fractures and aftershocks of the Ridgecrest sequence. Coauthored with Dr. Michael Oskin. \$40,295	2021
PG&E Research Proposal <i>Pacific Gas & Electric</i> Incorporating the role of stress dissipation by off-fault deformation into Probabilistic Fault Displacement Hazard Analysis (PFDHA). Coauthored with Dr. Michael Oskin. \$33,000	2020-2021

SCEC Proposal Award	2020
<i>Southern California Earthquake Center</i>	
Refining the timing and mechanics of San Jacinto-San Andreas joint rupture through Cajon Pass. Coauthored with Dr. Michael Oskin. \$42,016	
Geological Society of America Graduate Research Grant	2019
<i>Geological Society of America</i>	
Funding for field work at the Needles Fault District. \$2,200	
Rothschild Advanced Student Work Grant	2018
<i>College of the Atlantic</i>	
Funding for laboratory work of Undergraduate thesis. \$600	
NEGSA Stephen Pollock Undergraduate Research Program	2016
<i>Northeastern Geological Society of America</i>	
Funding for Geochronology of basalt dikes on Mount Desert Island, ME: implications for Eastern North American tectonics. \$2,500	

Honors and Scholarships

UC Davis graduate studies matching commitment award	2021-2023
<i>University of California, Davis</i>	
\$31,206.21	
Outstanding Student Presentation Award	2016-2022
<i>Various Conferences</i>	
Seismological Society of America Annual Meeting 2022 • Seismological Society of America Annual Meeting 2021 • American Geophysical Union Fall Meeting 2017 (Tectonophysics Section) • College of the Atlantic Science Symposium, Fall 2017 • Geological Society of Maine Annual Meeting 2016 • Northeastern GSA Section Meeting 2016.	
Summer Graduate Student Researcher Award in Engineering and Computer Sciences	2021
<i>University of California, Davis</i>	
Summer support for graduate research in engineering, computer sciences, and disciplines with engineering-related applications and methods. \$10,682.25	
Durrell Graduate Fellowship	2021-2022
<i>University of California, Davis</i>	
In recognition of academic accomplishments and the graduate program's evaluation of potential for future achievement. \$1,500	
Travel Grants	2016 – 2022
<i>Various</i>	
Progressive Failure of Brittle Rocks Penrose Conference, 2022, \$600 (declined) • Graduate Student Association Travel Grant, UC Davis, Spring 2022 \$500 • GeoPRISMS Synthesis Workshop, Winter 2022, \$400 • AGU Virtual Student Travel Grant, AGU, Fall 2020, \$1,000 • Graduate Student Association Travel Grant, UC Davis, Fall 2019 \$500 • GMTSAR Short Course Travel Award, UNAVCO, \$600 • Crustal Deformation Modeling Workshop, Computational Infrastructure for Geodynamics, Summer 2019 \$600 • UCD student volunteer travel grant, UC Davis, Fall 2018 \$500 • AGU Austin Student Travel Grant, 2017 \$500 • Northeastern GSA student travel award, 2016 \$100 • Davis Award for International Travel, College of the Atlantic \$1,500.	
UCD Graduate Research Award	2020
<i>University of California, Davis</i>	
Awarded in recognition of quality of research to support computational equipment costs. \$3,000	
NCALM Seed Award	2019
<i>National Center for Airborne Laser Mapping</i>	
Proposal selected to receive 40sqkm of ALSM lidar for the Needles Fault District (Utah).	
Senior Thesis Presenter to the College of the Atlantic Board of Trustees	2018
<i>College of the Atlantic</i>	
Selected by Faculty Senate to present senior thesis to board of trustees and graduation visitors.	
Shelby Davis Scholarship	2014-2018
<i>College of the Atlantic</i>	
Scholarship awarded yearly. \$80,000	
GSA On To The Future Program	2017
<i>Geological Society of America</i>	
Travel and mentorship scholarship to attend and present at the the GSA 2017 Annual Meeting. \$650	
Walter A. Anderson Student Award	2016
<i>Geological Society of Maine</i>	
Geological Society of Maine's recognition for best student work of the year.	
United World Colleges (UWC) Scholarship	2011-2013
<i>Pearson College UWC of the Pacific</i>	

Full scholarship to complete the International Baccalaureate at UWC. 15 students selected out of 1035 applicants in Spain.
\$98,000

Towards an Integrated View of Earthquake Gates From Geologic Observations and Numerical Models 2021

Seismological Society of America Annual Meeting

Chair: Veronica Prush (McGill). Other co-conveners: Michele Cooke (UMass Amherst) and Julian Lozos (CSUN).

Guest Lectures

Geology of National Parks

May, 2021

College of the Atlantic

Instructor of record: Prof. Sarah Hall. Lecture title: "Salt tectonics in the Canyonlands National Park". May 28, 2021.

Seminar in Plate Tectonics

March, 2021

Drexel University

Instructor of record: Prof. Loïc Vanderkluyzen. Lecture title: "Fault interactions in the Pacific-North America transform plate boundary". March 4, 2021.

Undergraduate Research Mentoring

SCEC SOURCES mentor

2021-2022

Southern California Earthquake Center

Project I: "Near-field kinematics of the 2019 Ridgecrest surface rupture" (summer 2021). Students: Brian Aguilar, Ruth Prado, Mercedes Quintana, Thomas Shea • **Project II:** "Characterizing the Surficial Extent of Damage along Creeping faults in the Navajo Sandstone" (summer 2021). Student: Michael Hernandez. **Project III:** "Unsupervised cluster analysis of surface rupture attributes" (2021-2022). Student: Mercedes Quintana. • **Project IV:** "Revisiting the role of geometrical complexity in rupture propagation" (2022-2023). Students: Vanessa Herrera and Sophia White. • **Project V:** Automated extraction of fault displacement profiles from lidar DEMs. (2022-2023). Student: Mercedes Quintana. • **Project VI:** "Mechanical compatibility of surface rupture segments with regional stress" (2023). Student: Vanessa Herrera.

Senior thesis mentor

2019-2022

University of California, Davis and San Diego State University

Sofia Marino (B.S. Geology, UC Davis, 2020), "Analysis of Fault-Tip Structures at Seismogenic and Creeping Faults", Project recipient of the Provost's Undergraduate Fellowship. • **Vanessa Herrera (B.S. Geophysics, SDSU, 2023)**, "The mechanics of earthquake rupture through fault bends in strike-slip events". • **Karen Castaneda (B.S. Geology, UC Davis, 2023)**, "Simulating and quantifying the role of surface processes in probabilistic fault displacement hazard assessment".

McNair mentor

2021-2022

University of California, Davis

Guadalupe Bravo (B.S. 2022), "Measuring coseismic vertical displacements from lidar point clouds". Lupita is a 2021 McNair scholar. Co-advised with Mike Oskin.

Undergraduate Research in Earth Science (GEL 199) mentor

2021

University of California, Davis

Leslie Garcia (B.S. 2022), "Drone-based mapping of the 2019 Ridgecrest foreshock", Spring 2021. • **Kimberly Bowman (B.S. 2020)**, "Mapping off-fault damage along seismogenic faults in the Navajo Sandstone, UT", Summer 2021. • **UC Davis student(s)**, "Quantifying the effect of surface processes in fault mapping", 2023. • **Makenna Pilchen (B.S. 2024) and Alayna Hudson (B.S. 2023)**, "Mapping synthetic post-earthquake DEMs for seismic hazard assessment", winter and spring 2023.

Service

Peer review

2021-present

Multiple journals

GRL, BSSA, SRL

AGU Tectonophysics Revival Task Force

2021-2023

American Geophysical Union

AGU Tectonophysics Graduate Student Representative

2021-2023

American Geophysical Union

Student representative for the Tectonophysics section of the American Geophysical Union.

Open Topography Advisory Committee Student Member

2020-2023

Open Topography (SDSC, SESE, UNAVCO)

Student representative in the OT Advisory Committee.

UJNR SCEC delegate

September 2022

United States/Japan Cooperative Program in Natural Resources

IRIS Seismology Skill-Building Workshop panelist

2021-2022

IRIS

Panelist in the pathways to grad school for international students webinar.

SCEC Community Fault Model Reviewer

2022

Southern California Earthquake Center

Pathways to Graduate School AWG panelist

2021

University of California, Davis

Served as panelist in graduate school Q&A event for undergraduates in the Earth Science department.

AWG UC Davis Undergraduate Mentoring Program

2018-2021

University of California, Davis

Sierra Brinton and Yvonne Leon, 2020–2021 • Sara Benavidez, 2019–2020 • Daphne Kuta, 2018 –2019

Prospective Student Weekend Organizer

2021

*University of California, Davis***Association for Women Geoscientists UC Davis Chapter Treasurer**

2019-2020

University of California, Davis

Fundraiser organizer, custodian of association funds, and event coordinator for undergraduate career path workshops.

Chemistry Faculty Search Committee

Fall 2017

College of the Atlantic

Served as one of two student members in the five member chemistry faculty search committee. Responsibilities include revision of applications, CVs, and online and in-person interviews.

Skills

Software*Matlab, Python (intermediate), R (beginner), ArcGIS/QGIS, Cubit/Trelis***Field Methods***Geological and Geomorphic mapping, oriented thin section sample collection, paleoseismic trenching***Laboratory Methods***¹⁴C sample preparation***Communication***English (proficient), Spanish (native)***Certifications***PADI Advanced Scuba Diver***Relevant coursework***UC Davis, UCSC, McGill, College of the Atlantic*

Active Tectonics, Earthquake Physics, Geological Data Analysis, Fracture and Flow of Rocks, Topics in Remote Sensing, Inverse Theory, Order of Magnitude Estimation, Calculus III, Differential Equations, Fractals and Scaling, Anatomy of Fault Zones, Quantitative Geomorphology, Field Camp, Advanced Volcanology.
